SKILLS

- NestJS
- ExpressJS
- MongoDB
- NextJS
- Redux
- Docker
- AWS
- Git

EXPERIENCE

Internship - FlexCoder (May 2023 - Aug 2023)

- During my internship at FlexCoder, I have been actively engaged in developing scalable backend applications using **NestJS**. Learn about **NestJS microservices** to build distributed applications to enhancing system scalability.
- Developed and integrated front-end applications using **NextJS**,

Freelance - FlexCoder (Aug 2023 - May 2024)

- Developed and maintained web applications using technologies like NestJS, React, and NextJS.
- Utilized **NestJS microservices** connected with **RabbitMQ** to ensure efficient and scalable message-driven architecture.
- Implemented **Moralis** API for blockchain-related functionality.
- Created front-end applications using Next.js with **Tailwind CSS** for responsive and modern UI design.

PROJECT

TrendBlog

- TrendBlog is an exciting Blogging web application built using the **MERN** stack.
- Allows users to create and share engaging posts on trending topics.
- User-friendly login system powered by **JWT**.
- Users can update and delete their posts at any time.

Chat App

- ChatApp, a Messaging web application built using the **MERN** stack.
- Users can send and receive messages instantly.
- Users can create groups for group chats.
- Real-time communication powered by WebSocket (Socket.io).
- Secured with authentication.

EDUCATION

HSC   2020
- 72 %

LDRP-ITR GANGHINAGAR   2020-2024
- Bachelor of Computer Engineering,
- CGPA: 8.53
